SKILLS
JavaScript, React, Redux, Python, SQLAlchemy, Node.js, Express, HTML, CSS, SQL, AWS S3, Git, PostgreSQL, Sequelize, API, Problem-solving, Pressures management, Teamwork, Leadership.

Languages
English, Vietnamese

PROJECTS

NhutBnB | *(JavaScript, React/Redux, Express.js, CSS, Sequelize, PostgreSQL)*   **live** | **github**
- Developed API routes with Express/Sequelize that queries and accesses the correct information such as users' hostings, reviews, images, and more.
- Enacted original CSS design in order to mimic AirBnb's user-friendly design and UI to give users a familiar and easy-to-use interface
- Designed and implemented an easy-to-use and intuitive user interface via React and Redux in order to allow users to easily create new hosting, and leave reviews.

Ravenhood | *(React/Redux, Python/Flask, SQLAlchemy, CSS, Chartjs, Apexchart, yahoo API)*   **live** | **github**
- Led a team of 4 to complete a full stack project in 1 week, and learned the importance of team communication and daily standup.
- Implemented live intraday stock markets data that update every 5 seconds using yahoo finance API.
- Incorporated apex chart and charts.js, and formulated function to filter out necessary data that fits the historical timeline for each stock.
- Designed and Implemented the database schema required to operate the website.
- Utilizes Redux to store graph data points to prevent errors from API query limitations.

FLUM (yelp clone) | *(React/Redux, Python'Flask, SQLalchemy, CSS)*   **live** | **github**
- Succeed in implementing a high-functioning website despite massive time constraints.
- Improved self-time management skills.
- Implemented CRUD APIs endpoints using python flask.

EXPERIENCE

Manager
Miss Tea, Baldwin Park, CA   May 2016 - Feb 2021
